

# How do I fit a Gentle Leader?

## Step by step guide to fitting a Gentle Leader

- Follow the instructions carefully taking the time to adjust the Gentle Leader to fit the contours of your dog's face for a comfortable fit
- Throughout the fitting process & during initial use of a Gentle Leader, motivate & encourage your dog with praise & tasty treats.

### •Step 1

Attach lead to Control Ring (Fig A)

Fig A

### •Step 2

Open neck strap, holding one end in each hand. Nose loop and lead should hang down to form the letter 'T' (Fig B)

### •Step 3

Fit neck-strap high on the neck, touching the base of your dog's skull at the back and snug above the Adam's Apple at the front (Fig C)

It must be possible to squeeze just one finger underneath the neck-strap – this will prevent rotation around the dog's neck (Fig D)

Even though the Gentle Leader fits much more snugly than other collars you will notice that your dog is still comfortable, able to pant easily & shows no signs of distress or discomfort

### Step 4

Take neck-strap off your dog

### •Step 7

Slide the adjustable sliding clamp up the nose loop under the jaw (Fig H). The nose loop should be in front of your dog's eyes, behind the corners of your dog's mouth & be loose enough to pull forward to the fleshy part of the nose – but not so loose that you can pull it off the end of his nose

Make final adjustment to nose loop & then close the adjustable sliding clamp, start walking straight away.
